The industry has responded by investing in training and education to ensure that workers have the skills needed to operate the new technology. The industry has also been successful in attracting new workers to the field, particularly in the areas of engineering and technology.

# House OKs creation of 3 more districts

THE HOUSE OF REPRESENTATIVES has passed a bill that would create three new congressional districts in the state. The bill, H.R. 1111, was passed by a vote of 218 to 215. The bill would create three new districts: the 1st, 2nd, and 3rd districts. The 1st district would include all of the territory currently in the 1st district, plus the territory currently in the 2nd district. The 2nd district would include all of the territory currently in the 2nd district, plus the territory currently in the 3rd district. The 3rd district would include all of the territory currently in the 3rd district, plus the territory currently in the 4th district. The bill would also require the state to hold a referendum on the creation of the new districts in 2012. If the referendum is approved, the new districts would be created in 2013.

# Ampatuans' security beefed up

Security forces have beefed up their presence in Ampatuans, a small town in the northern part of the island of Mindanao, after a series of attacks on the area.

The town, which is home to a large number of Muslims, has been the target of several attacks in recent months, including a bombing of a school and a shooting of a police officer.

The local government has requested that the military increase its presence in the area to provide additional security for the residents.

The military has agreed to the request and has sent a battalion of soldiers to the town. The soldiers are currently stationed in a large building in the center of the town.

The local government is also taking steps to improve the town's security. It has hired a private security company to provide additional protection for the residents.

The company has sent a team of guards to the town, who are currently patrolling the streets.

The town's residents are grateful for the increased security. They feel that the presence of the military and the private security company will help to protect them from further attacks.

# Court told one journalist shot 28 times

A court in the Philippines has ruled that a journalist was shot 28 times during a conflict in the southern part of the country.

The journalist, who was a member of a news organization, was shot while covering the conflict. The court found that the shooting was a deliberate act of violence against the press.

The court's decision is a landmark ruling in the Philippines, as it is the first time a court has ruled that a journalist was shot during a conflict.

The ruling is a strong statement against the use of violence against the press. It also serves as a warning to other journalists who are covering conflicts in the region.

The journalist's family is grateful for the court's decision. They feel that it is a step towards justice for their loved one.

The court's decision is also a victory for the press. It shows that the press is not just a passive observer of events, but a participant in the conflict.

# Boxers won't be playing at home field in series

Boxers will not be playing at home field in the upcoming series, as the venue has been changed.

The series, which was originally scheduled to be played at the home field, has been moved to a different location.

The reason for the change is that the home field is not suitable for the series.

The new venue is a large stadium that can accommodate a large number of spectators.

The series is expected to be a highly competitive one, as both teams are strong.

The boxers are looking forward to the series and are confident that they will perform well.

The fans are also looking forward to the series and are excited about the change of venue.

Therapeutic drug monitoring

1. The first group of people who are likely to be affected by the proposed project are the local residents who live in the vicinity of the project site. These residents may be affected by the project in a number of ways, including increased traffic, noise, and air pollution. The project may also affect the local economy by creating jobs and increasing the demand for goods and services. The project may also affect the local environment by increasing the demand for water and electricity, and by increasing the risk of flooding and other natural disasters.

**Q:** I have a 1994 Ford Taurus with a 3.0L V6 engine. I have been having a problem with the engine stalling when I stop at a traffic light. I have replaced the spark plugs, the air filter, and the oil. I have also had the engine tune-up. The problem still persists. What could be the cause of this problem?

**Is it in the country?**  
 The big question is not how far a location is from other environmental sites. How close you get to that place, a 100-ft hole in the ground, has more to do with whether you're in a "good" or "bad" neighborhood.

The industry wants to know how close to the hole you are. But with 100 ft, you're in the "good" neighborhood, says Michael J. ...
